

UNIVERGE® UC1

Fulfilling the promise of UNIVERGE®360

Designed with the small business in mind, UNIVERGE UC1 is a comprehensive communications solution that provides businesses with a distinct competitive advantage. UNIVERGE UC1 is comprised of NEC's core UC applications, an IP-based communications server and a web-based management tool.

UC1 is the next-generation of NEC's UNIVERGE360 approach to unifying business communications - an approach that focuses on the role of the user to determine the best communications method and technology. This focus results in solutions like UC1, which enables users to communicate more easily. It provides the features, flexibility and simplicity to unify your communications – even when employees take on multiple roles.

At a Glance

- A complete Unified Communications (UC) solution for small businesses
- Preconfigured and easy to install
- Simple to use and manage
- An amazing value – both today and for the future

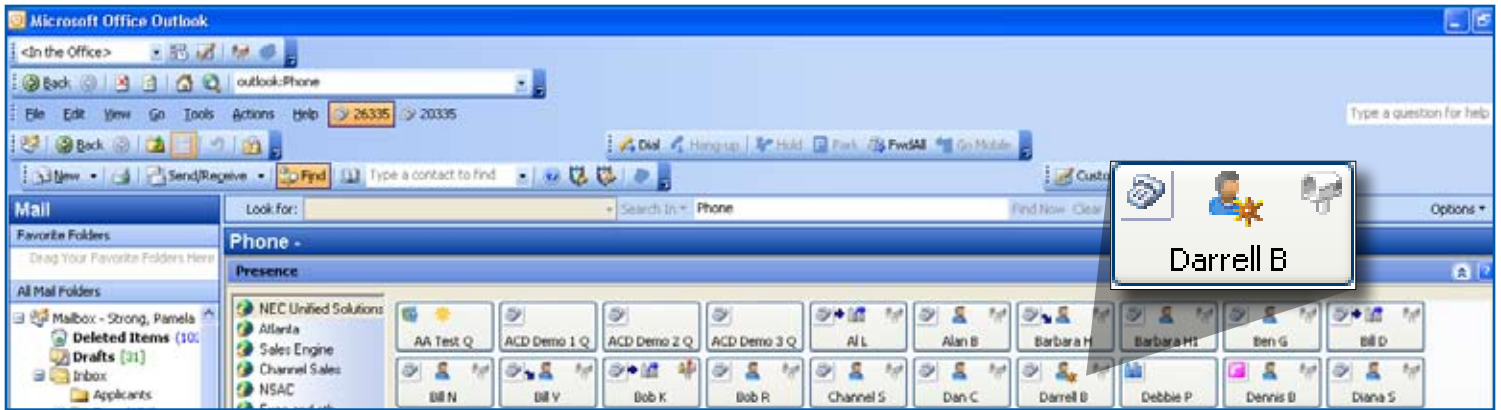

A Complete UC Solution

NEC's UNIVERGE UC1 is a complete communications solution for your business that provides the capabilities of a large enterprise solution. It offers all of the features necessary to:

- Enhance your organization's customer service
- Offer your customers a higher level of satisfaction
- Remove communication bottlenecks in order to make better decisions faster
- Implement a reliable, scalable NEC IP communications system to meet your organization's needs now and into the future

With NEC's UC1, users manage their communications devices instead of having their devices manage them. They can connect from wherever they are via phone, fax, PC, mobile device or the Internet through features such as:

- Rich Presence, which helps users
 - Collaborate with colleagues more effectively
 - Determine the real-time status and availability of their coworkers instantly
 - Avoid phone tag by alerting the caller when the called party's line is free or when they return to their desk

Outlook Desktop with Rich Presence Details

- Mobility, to ensure immediate responses to calls and requests through
 - One number reach which provides anytime, anywhere accessibility
 - One-click call transfer to mobile phones, which ensures call continuity
- Desktop telephony and Microsoft® Office Outlook® integration, which
 - Simplifies call handling and enables users to manage all communications from their desktops
 - Offers the ability to manage all calls, voice messages, faxes and email from Outlook
 - Displays real-time caller information, which gives users the ability to personalize greetings and screen calls

Preconfigured and Easy to Install

UC1 arrives preconfigured. Its easy out-of-the-box setup and installation guarantees you'll be up and running in no time.

Simple to Use and Manage

UC1 provides powerful, intuitive desktop features and a UC interface that simplifies and improves end-users' communication experiences. Its secure, easy-to-use management and call accounting applications increase your organization's speed and your customers' satisfaction.

An Amazing Value – Both Today and for the Future

The total savings represented by UC1 are quite significant. Of course, its initial acquisition as a bundle saves your organization money immediately. Its implementation and continued use also provides more opportunities to demonstrate its value.

UC1 enables you and your staff to:

- Save time with an easy-to-use web-based management tool
- Easily track and control communications costs, including carrier billing validation using real-time expense management tools
- Complete moves, adds and changes more quickly
